Hi Ash,

Thank you. If OK by you, I will submit these edits to you and also the pen.

Here is an edited version of the Annex 4 chapter—I tinkered with the intro (use your best judgment on what to keep to add to your edits) and added US domestic actions funded by GLRI—and also added in other US placeholder bullets to be considered for inclusion if Santana agrees. They would need to be drafted (I can see the chapter getting long if all bullets are added, so didn't spend time fleshing them all out yet but can do so if I get the go ahead).

Am ccing Jamie, Lyndzi and Santana just so they can stay updated as to where things are in case Chris asks them.

Thank you very much Ash and I am here next week to discuss/help you out- just let me know.

Beth

Beth – I'm sharing with you as the "A4 PRP chapter penholder" input that we received from OMOECC. I actually started incorporating their comments into the draft I have so you may want to take a look at that or simply try and see where / how OMOECC-nutrients related comments may fit into your draft. Alternatively, you can informally send me your A4 edited draft and I can see how/where OMOECC comments fit (this is what Jamie and I are doing for A6 and the DFO comments we received).

Ash
